1. Click on Actions icon

2. Click on Manage Variant Angles

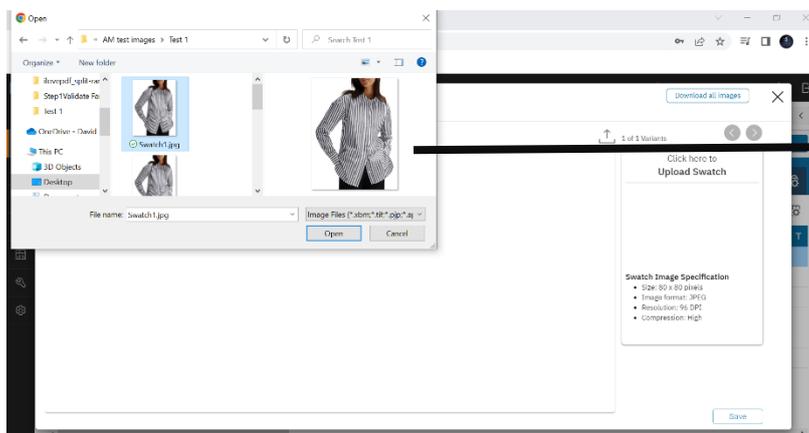

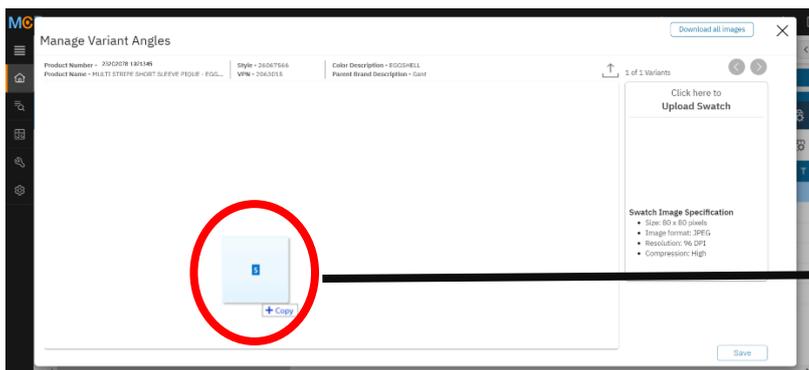

# DAVID JONES

- You will see the following window.

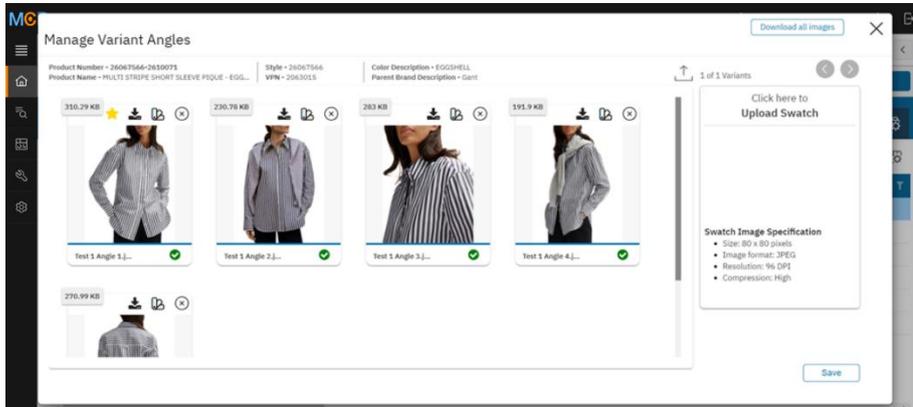

- The central space is where you can upload images for your variant.
- The space on the right can be used to upload swatch.

- To upload images, you can drag and drop the images or click anywhere in the central space and browse for the images.

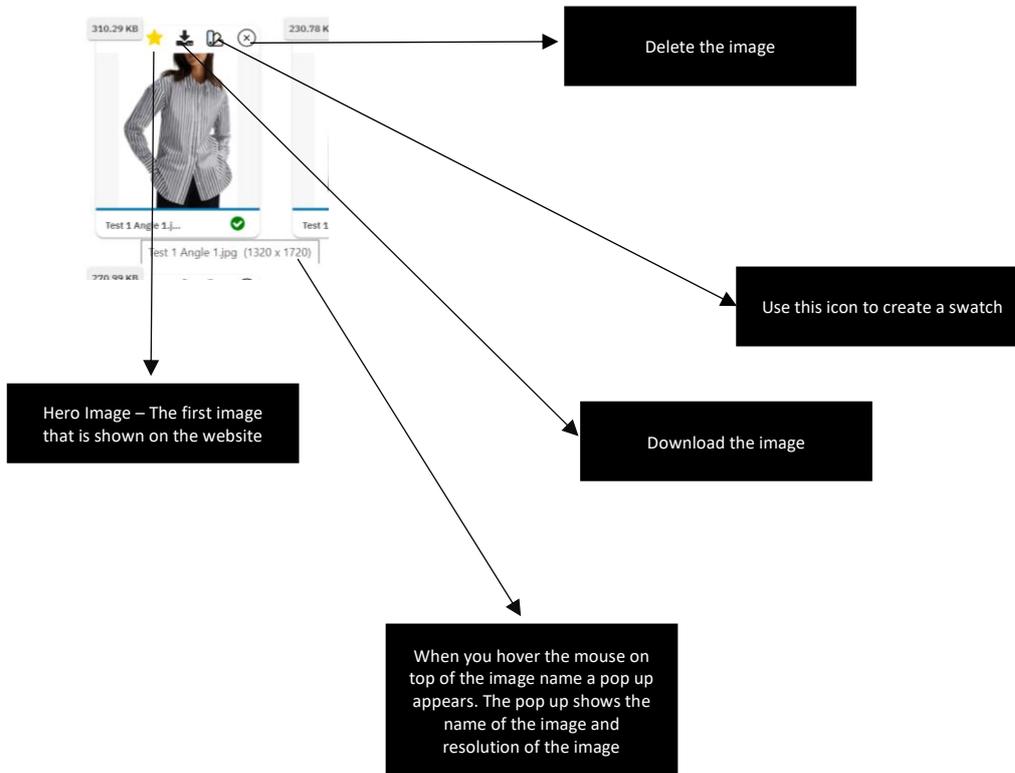

# DAVID JONES

- Upload the images and the images will be displayed as shown below.

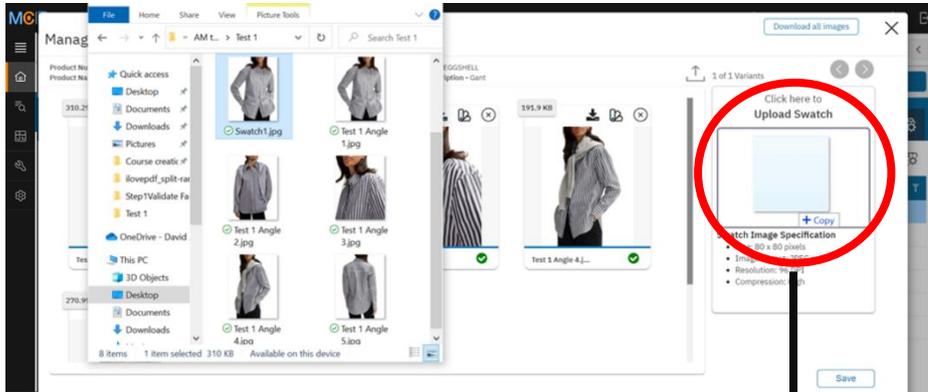

- Let's understand the icons on top of the image

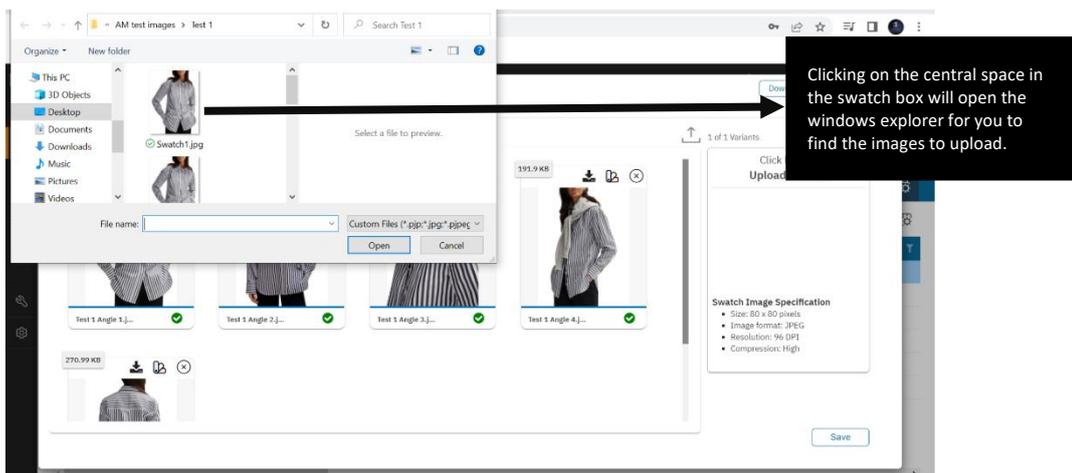

# DAVID JONES

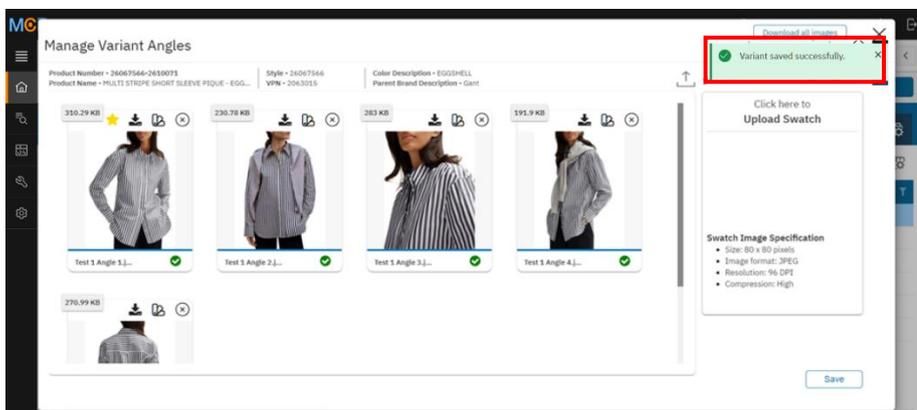

- Upload the swatch by dragging the image into the small box or click on upload swatch and look for the image.

Dragging and dropping images

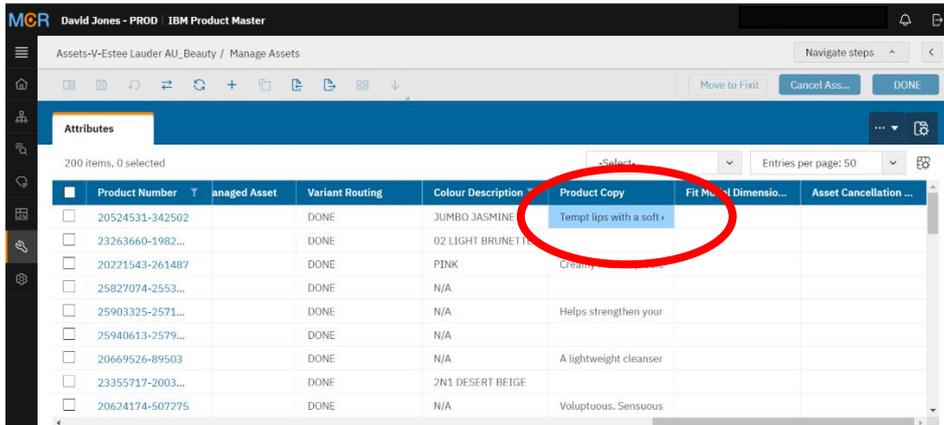

- If you are happy with the images, then click on save. You will see the following message.

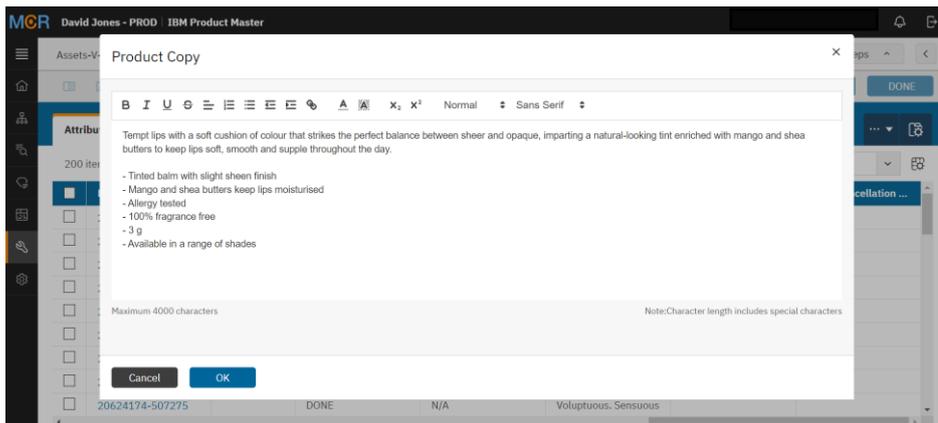

# DAVID JONES

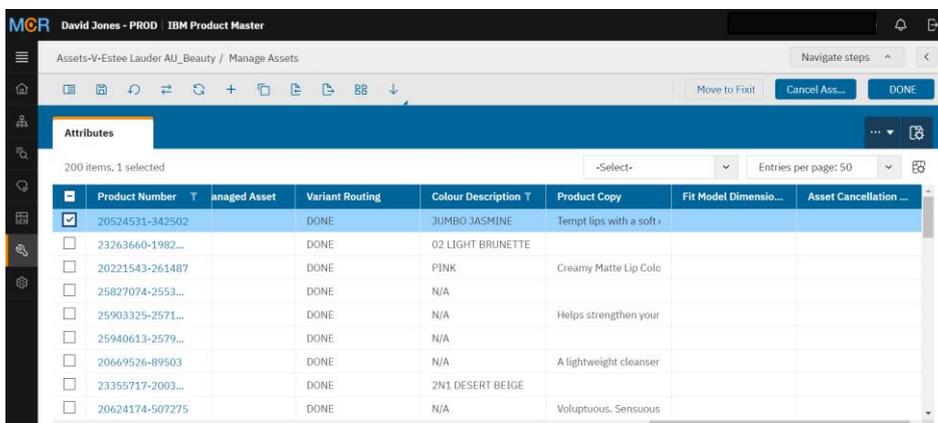

- The product copy can be uploaded in the grid view itself. Double Click on the cell to edit the product copy.

- A rich text editor will open. Use this space to write about the product. Use the formatting options to make the product copy look attractive.

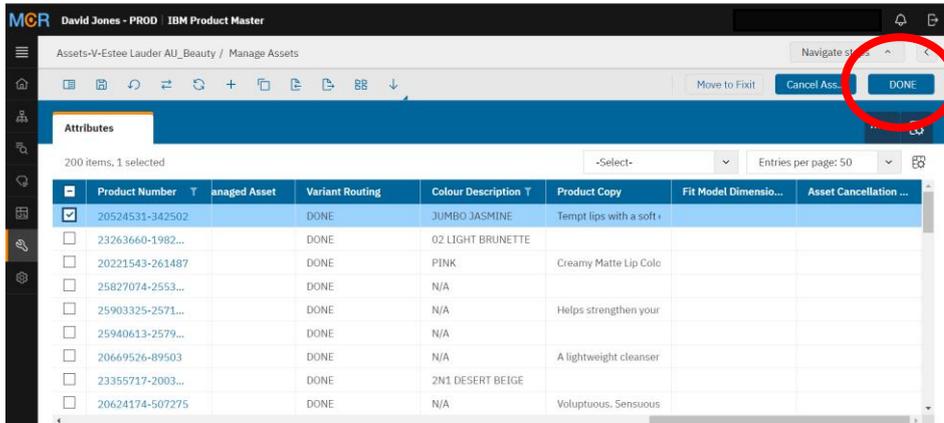

- Click on okay if you are happy with the product copy.

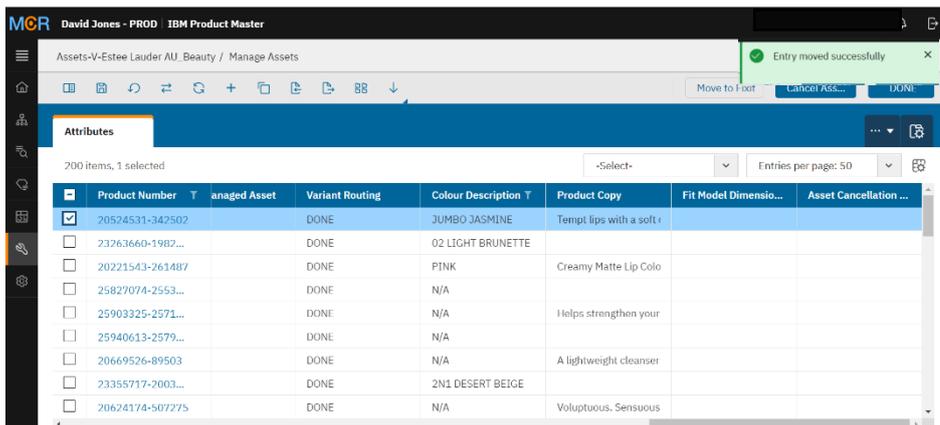

# DAVID JONES

- To complete the enrichment process, select the variant and click on done.

- You will see a green dialog box appears on the top right hand corner which states “Entry moved successfully”.

Congratulations you have successfully uploaded the assets for one variant.
