How can I check if style has been enriched?

How do I check the enrich status?

Step 1 - Search for the item, you can search with the vendor product number (VPN) as shown below

Search criteria: Where Style Spec/Style VPN Equals FC04B

Search results table:

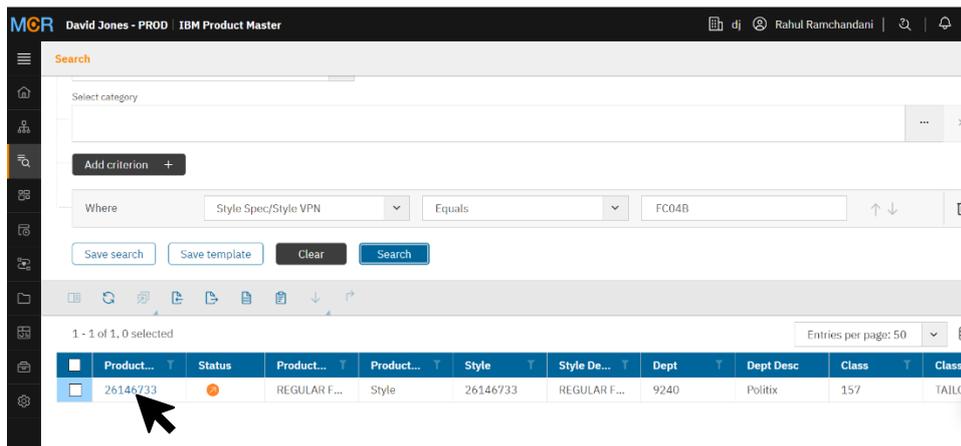

Product...	Status	Product...	Product...	Style	Style De...	Dept	Dept Desc	Class	Class
26146733	Amber	REGULAR F...	Style	26146733	REGULAR F...	9240	Politix	157	TAILO...

Enter your vendor product number. This is just an example

Step 2 - Click on the product number and you will enter the single edit preview

Note: The status of this item is amber which means it is either in your workflow waiting to be enriched or with the DJs merchandise team to be approved.

If the status is green it means that the item is in the product catalogue. In other words, the item has either not begun its item enrichment journey or item enrichment has been completed and item should be live.

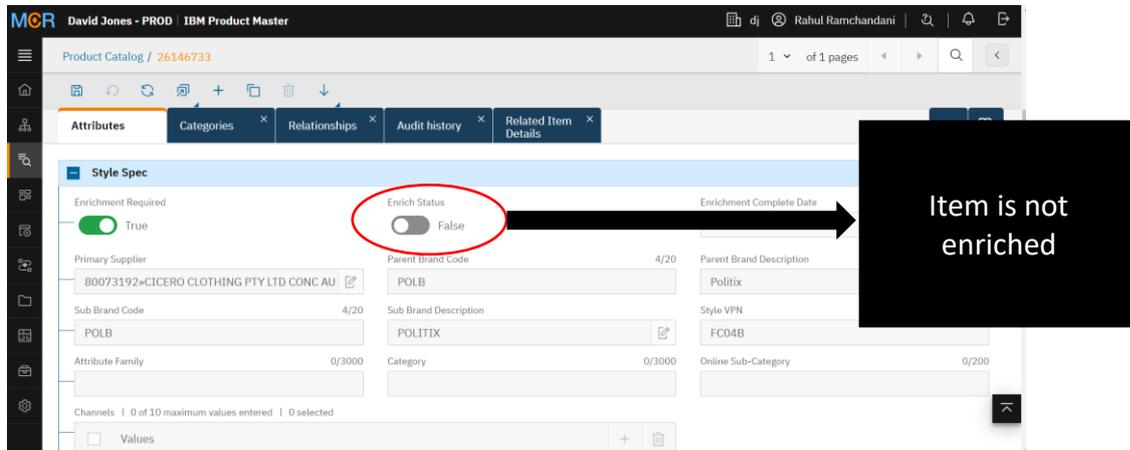

Search criteria: Where Style Spec/Style VPN Equals FC04B

Search results table:

Product...	Status	Product...	Product...	Style	Style De...	Dept	Dept Desc	Class	Class
26146733	Amber	REGULAR F...	Style	26146733	REGULAR F...	9240	Politix	157	TAILO...

Step 3 – To find out the enrich status check the enrich status, in this case the item is not enriched.

Alternatively, you can get an entire list of items that have completed item enrichment.

To get this list follow the steps as shown below:

Step 1 – Click on the search icon

DAVID JONES

Step 2 – Search for enrich status and brand code as shown below

Note: You can find your brand code in the item enrichment widget.

The screenshot shows the 'Search' interface in the IBM Product Master. The 'Search criteria' section is expanded, showing two criteria: 'Style Spec/Enrich Status' set to 'Equals' and 'True', and 'Style Spec/Parent Brand Code' set to 'Begins with' and 'FIDA'. The interface includes buttons for 'Save search', 'Save template', 'Clear', and 'Search'.

Step 3 – You will get an entire list of items that have completed item enrichment

The screenshot shows the search results table in the IBM Product Master. The table displays a list of items with columns for Product ID, Status, Product Name, Style, Style Description, Dept, Dept Desc, Class, and Class Description. The first five rows are visible, showing items with various statuses and product names.

Product...	Status	Product...	Product...	Style	Style De...	Dept	Dept Desc	Class	Class
