

DAVID JONES

How can I see my items after asset management?

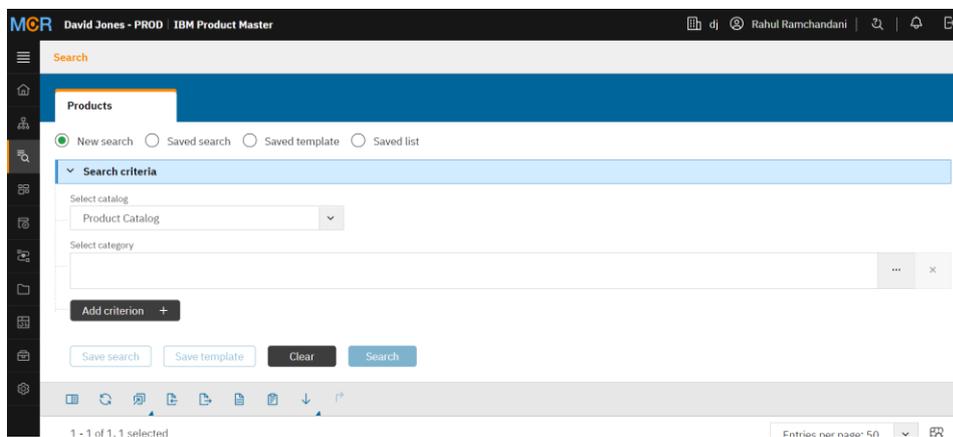

After completing asset management, items will be transferred to the DJ's digital team's workflow for review.

You will not be able to see them in your workflow anymore however you should be able to search for them

Follow the steps shown below

Step 1 – Click on the search icon

DAVID JONES

Step 2 – Search for the item using the Vendor Product Number (VPN) at a variant level as asset management works at a variant level.

The screenshot shows the 'Search' page in the IBM Product Master system. The search criteria are set to 'Variant Spec/Variant VPN' with the value '245602'. The search is performed at the 'Product Catalog' level.

Search criteria:

- Select catalog: Product Catalog
- Select category: (empty)
- Where: Variant Spec/Variant VPN
- Search criteria: Begins with 245602

Buttons: Save search, Save template, Clear, Search

Step 3 – You can see the variants have been listed here.

The screenshot shows the search results table in the IBM Product Master system. The table displays 6 entries, all of which are variants of the product 'VOLLEY SH...'. The status of each variant is indicated by a colored circle (green for active, orange for inactive).

Product Number	Status	Product...	Product...	Style	Style De...	Dept	Dept Desc	Class
26051941-2603588	●	VOLLEY SH...	Variant	26051941	VOLLEY SH...	3058	Academy M...	123
26051941-2603589	●	VOLLEY SH...	Variant	26051941	VOLLEY SH...	3058	Academy M...	123
26051941-2603590	●	VOLLEY SH...	Variant	26051941	VOLLEY SH...	3058	Academy M...	123
26051941-2603591	●	VOLLEY SH...	Variant	26051941	VOLLEY SH...	3058	Academy M...	123
26051941-2603608	●	VOLLEY SH...	Variant	26051941	VOLLEY SH...	3058	Academy M...	123
26051941-2603609	●	VOLLEY SH...	Variant	26051941	VOLLEY SH...	3058	Academy M...	123
